Sealed Blok® with RSQ® Rescue Function

Product information

Sealed Blok, for heavy environments. The RSQ® system for rescue allows for either automatic rescue after a fall, or manually assisted rescue, the latter operated from above or from below.

Sealed design meets IP68 sealed rating.

Steel cable in stainless or galvanized. Please specify.

Extra features for safety / comfort / lower cost of ownership:

- Fall impact indicator on karabiner.
- Swivel prevents cable from too much twist.
- Cable replacement, on location, without opening block.

... Read more

Material: Housing: Aluminium
Note: In case of blocks with rescue winch: the winch is only for rescue. For general hoisting purposes with material loads, or with persons, winches are needed with dedicated certifications.

Sealed Blok® with RSQ® Rescue Function
