Ergogrip Rescue Skylotec

Product information

The SKYLOTEC ERGOGRIP RESCUE is an adjustable lanyard designed for work positioning at height and rescue applications. Its rope clamp enables precise length adjustment for stable positioning, while the integrated rescue loop provides additional options for securing and rescue operations. Available in different rope lengths to suit specific working requirements.

Best used for:

- Work positioning in suspended environments requiring adjustable rope length.
- Professional work-at-height and rescue applications, including suitable temporary anchor arrangements.

Product benefits:

- Continuously adjustable rope clamp enables precise positioning and controlled movement.
- Integrated rescue loop provides additional options for rescue and securing operations.
- 16 mm polyamide rope with aluminium and steel components supports demanding use.
- Hand-washing: 40°C
- Conforms to EN 358:2018, EN 795:2012/B, ANSI/ASSP Z359.3-2019 and CSA Z259.11-17.
- Different rope lengths allow selection according to work positioning requirements
