

Rope Super Static 11mm White

Product information

The static rope Super Static is designed for heavy loads when working at heights as well as for rescue and winch operations. Expansion and sheath slip are low. The abrasion resistance of the sheath, on the other hand, is so high that it is even suitable for climbing clamps. At the same time, the Super Static is also flexible enough to be used for rescue operations with long abseiling distances.

Rope type: Static.

Static elongation: 3%

Material: Polyamide

Marking: According to standard, CE-marked, Diameter, Standard

Temperature range: -35°C up to 55°C.

Finish: White

Standard: EN 1891

Part code	Diameter mm	Min. breaking force kN	Max. number of persons	Length m	Weight kg
19.04R-079-WE-10	11	30	1	10	0.77
19.04R-079-WE-50	11	30	1	50	3.81
