

## CHD push trolley | Manual

### Product information

#### General:

CHD manual travel trolley for loads from 250 up to 10.000 kg. It can easily be installed on I- or H-steel profiles up to 300mm. The trolley can be positioned along the beam by pushing the load.

#### Technical characteristics:

- Can be used with any type of overhead hooked lifting device.
- Operated by directly pushing the load
- Delivered in individual boxes, ready to assemble.
- Easily adjustable to fit up to 300mm beams (over 300mm on request).
- Trolley flange made of heavy-duty steel.
- Side plates finished with RAL7021 powder coating, 70 µ thick.
- Rollers machined for smooth movement.
- Rollers compatible with all sorts of I and H beams.
- Watertight, maintenance-free ball bearings.
- Fall-prevention brackets and rubber stops.
- Serial number inscribed on chassis.

#### Optional:

- Ex Version with ATEX markings.
- Higher load capacities on request.

**Material:** Side plates and Traverse Steel E24, Rollers Steel Ft25

**Marking:** CE-marked

**Finish:** Side plates: High duty powder paint RAL 7021.

**Safety factor:** 4:1
