

Leenstra Pistol Anchor

Product information

Mobile insert anchor for safe working on hollow core concrete floor plates.

Recommended connector:

IKAR SRL HWPS-3, with 3 m. steel wire rope.

With this block the anchor has been sharp edge tested. Accordingly this is the only block allowed for this application.

The anchor has also been tested with a 2 m lanyard, but this needs considerably more free fall clearance than the block. The low height of one floor level makes this too risky. This makes why we advise the IKAR SRL instead of lanyards.

Material: Steel

Marking: According to standard, CE-marked

Standard: EN 795-B
