

Single Acting Battery Pump Set APEIRON HBP05S02

Product information

With the Holmatro APEIRON HBP05S02, we introduce a single acting battery pump standard that offers unparalleled performance and limitless possibilities, empowering you to keep going in even the most demanding circumstances. The patented pump technology with electronic motor control ensures consistent, long-lasting performance. It's powered by a high-quality, purpose-built battery with large, high-quality cells. Real-time feedback on charge status and temperature always keeps you in control. This advanced system ensures optimal efficiency, seamless and safe operation. The Apeiron HBP05S02 features an accurate & controllable manual pressure release valve that is integrated in the valve block of the pump. Therefore, loads can be lowered safely and under full control. The Apeiron is proven to last longer in rigorous endurance testing: less downtime, more work done!

Standard supplied with:

- 2 Batteries
- Hand pendant control, 3m length cord
- Couplers that suit the application: plug and play

Temperature range: -20 °C up to +55 °C

Note: Standard delivery is without battery charger. The charger is sold separately in EU - UK or US versions

Type	Max. working pressure bar/Mpa	oil capacity cc	Engine	A,	B,	C,	Weight kg
HBP05S02	720 / 72	2,500	28 VDC - 0.95 kW	520	260	225	13.3
