

Wall Jib Crane Articulated PMA

Product information

This articulated jib crane has a very reduced headroom. Its first arm can rotate 180° degrees and the second 300°. The articulated structure facilitates the movement of loads in a cluttered environment. This model is restricted to only manual rotations.

The PMA are delivered with standard mounting brackets and our mounting kits KITFIX (optional) ensure safe anchorages for specific supports.

A full range of accessories is available.

Options

- Hoist power supply cable + lockable main switch
- Standpipe
- Rotation slowing device (adaptable without welding or mechanical intervention)
- Option of a slowing device on each arm
- Hot dip galvanizing (contact us)
- Rotation stops to weld onto the assembly
- Single- or multipositions rotation lock (arm 1 only)
- Electric or manual hoist
- Outdoor use
