

Pillar Jib Crane Overbraced Light 270° PFTL

Product information

The jib crane is a lightweight PFTL reserved to the suspension and movement of electric and pneumatic tools. The use of this model is not recommended for lifting loads other than tools.

- Rotation occurs on 270°
- Manual shifting of the load
- Floor fixing is assured only by chemical anchors
- A full range of accessories is available

Options

- Lockable main switch
- Rotation stops to be weld onto the assembly
