

Carabiner OBX TG Skylotec

Informations du produit

Oval connector with a triplex gate, made for placing wide-section devices, such as pulleys, ascenders and fall arrest devices.

- Oval shape for optimal positioning on ropes and devices
- Ergonomic shape that enables a good opening of the lever for improved handling
- Reinforced contact areas for better rope sliding and resistance to wear and tear
- a smooth line between the nose and the internal part of the connector, facilitating insertion and disconnection from anchors, tools and ropes
- Catch-free closure

Marquage: Selon la norme, Marqué CE

Norme: EN 12275-B, EN 362-B
